VESTENAMER® is used as a processing aid for the rubber industry. In the production of masterbatches, to increase the compatibility of rubber blends, and to simplify rubber recycling.

VESTENAMER® APPLICATIONS

RECYCLING RUBBER
- Virgin rubber blends
- Recycling rubber goods
- Rubber-modified asphalt

VESTENAMER® is used as a processing aid for the rubber industry. In the production of masterbatches, to increase the compatibility of rubber blends, and to simplify rubber recycling.

RUBBER GOODS
- Rolls
- Drive belts
- Conveyer belts
- Cables & wires
- Flooring & roofing
- Molded goods
- Foamed products

MEDICAL
- Seals
- Profiles
- Hoses
- Rubber stoppers
- Thermoformable products

SPORTS
- Bladders
- Recycling rubber
- Sidewall
- Tread
- Apex
- Strips
- Shoelaces
- Golf balls

MASTER BATCHES
- Sulfur
- Carbon
- Additives
- Thermo plastics
